Vrushank Modi

Senior Frontend Developer | React.js | TypeScript | Redux

Location: Mahalunge, Pune | **Phone Num:** +91 95744 17017 | **Email:** vrushankm19@gmail.com
Portfolio: https://vrushankm19.github.io | **GitHub:** https://github.com/vrushankm19
LinkedIn: https://www.linkedin.com/in/vrushank-modi-b99147193

Senior Frontend Developer with 5+ years of experience specializing in React.js, Redux Toolkit, Next.js, TypeScript and modern UI development. Experienced in building scalable, high-performance web applications, dashboards, and enterprise platforms with a strong focus on usability, accessibility, and performance optimization. Proven expertise in converting Figma designs into pixel-perfect, responsive interfaces, implementing dark/light themes, multi-language support, and integrating REST APIs. Hands-on experience with Agile/Scrum, Git-based workflows, and frontend optimization techniques for large-scale applications.

Technical Skills

- **Front-End** : React.js, Redux Toolkit, Next.js, JavaScript (ES6+), TypeScript
- **Markup & Styles** : HTML5, CSS3, SCSS/Sass, Bootstrap, Tailwind CSS, Material-UI (MUI), Figma
- **Tools & Workflow** : Gulp.js, Vite, Git, GitHub, CI/CD, Microsoft Azure , ChatGPT, Gemini, GitHub Copilot, Cursor AI
- **CMS & Platforms** : WordPress, Elementor
- **Methods** : Agile SCRUM, SEO-Friendly Coding

Education

Gujarat University – Gujarat — Apr 2015 - May 2018

Bachelor of Computer Applications (BCA) in Programming

- P.D. Pandya College, Ahmedabad

11th-12th Commerce – Gujarat — Jul 2013 - Mar 2015

SSC and HSC in Commerce

- Ahmedabad

Professional Experience

NO Brain IT Solutions Pvt. Ltd – Pune — Aug 2024 - Dec 2025

Frontend Developer

Amura Marketing Technologies Pvt. Ltd – Pune — Mar 2022 - Aug 2024

Senior Web Developer

X-Byte Enterprise Solutions – Ahmedabad — Mar 2020 - Mar 2022

Frontend Developer

Certifications

Zoho CRM for Administrators – ZOHO — Feb 2021

Graphic Design & Web Development – Arena Animation — May 2018–Dec 2019

Projects (Key Frontend Deliverables)

NAFIS Dashboard & Multi-Language Support (Feb 2025 - Dec 2025), M12 (Aug 2024 - Feb 2025)

Technologies: React.js, Redux, Material-UI, TypeScript, Bootstrap, Tailwind CSS

- Designed and developed modern, responsive dashboard interfaces using React.js, Next.js and Material-UI, React Hooks, delivering a clean layout and intuitive navigation across devices.
- Built scalable and high-performance UI components using Redux for centralized state management, improving code reusability and maintainability.

- Implemented multi-language (i18n) support to enable seamless language switching, enhancing accessibility and usability for a global user base.
- Followed React best practices including component-based architecture, hooks, and modular design to ensure clean, maintainable, and scalable code.
- Integrated REST APIs and optimized frontend performance through efficient rendering and state handling.
- Actively participated in Agile SCRUM ceremonies such as sprint planning, daily stand-ups, reviews, and retrospectives to ensure on-time delivery.
- Delivered user-centric interfaces aligned with business and client requirements, improving overall product usability and consistency.

Kylas Sales CRM Plugin (Feb 2024 - July 2024)

Technologies: React.js, JavaScript, HTML5, SCSS/Sass, GitHub, Tailwind CSS

- Designed and developed a fully custom React.js–based plugin to extend and customize core Kylas Sales CRM functionalities as per business requirements.
- Implemented automated PDF generation to enable seamless creation and download of professional payment slips directly from the CRM dashboard.
- Built intuitive, user-friendly, and responsive UI components following modern React best practices and cross-browser compatibility standards.
- Improved user experience and operational efficiency by streamlining workflows and reducing manual effort through automation.
- Integrated the plugin smoothly with existing CRM modules, ensuring performance, reliability, and data consistency.
- Collaborated closely with cross-functional teams to align frontend implementation with business logic and system architecture.
- Followed Agile SCRUM methodology, actively participating in daily stand-ups, sprint planning, reviews, and retrospectives to ensure timely and high-quality delivery.

Sany, NPAV, HROne, Uneecops, Land Global, Natural Remedies Human Health (Mar 2022 - Aug 2024)

Technologies: JavaScript, HTML5, SCSS/Sass, Gulp.js, GitHub

- Designed and developed responsive, high-quality user interfaces for the NPAV platform, ensuring consistent performance across desktop, tablet, and mobile devices.
- Implemented modern UI themes including light and dark modes, enhancing accessibility, usability, and overall user experience.
- Optimized layouts and frontend assets to achieve faster load times, smooth rendering, and full cross-browser compatibility.
- Translated UI/UX designs and product requirements into reusable, functional components through close collaboration with designers and product teams.
- Maintained a clean, scalable, and performance-driven frontend architecture by following best coding practices.
- Actively contributed to Agile SCRUM processes, participating in sprint planning, reviews, retrospectives, and daily stand-ups to support timely delivery.

AutoCri Single Page Application (SPA) (Feb 2021 - Mar 2022)

Technologies: JavaScript, jQuery, HTML5, CSS3, Bootstrap, SCSS/Sass

- Developed a scalable Single Page Application (SPA) using modern frontend technologies, enabling efficient data binding and seamless UI updates.
- Implemented dynamic client-side functionality using JavaScript and jQuery to enhance interactivity and user engagement.
- Built responsive and mobile-first web interfaces using HTML5, CSS3, Bootstrap, and SCSS/Sass, ensuring consistent user experience across devices.
- Designed clean, modern, and user-friendly UI components with a strong focus on performance and usability.
- Ensured full cross-browser compatibility across all major browsers to deliver a consistent and reliable experience.
- Implemented client-side form validation using JavaScript and integrated REST APIs to enable smooth data flow and real-time updates.
- Actively participated in Agile SCRUM ceremonies including daily stand-ups, sprint planning, reviews, and retrospectives to support timely and high-quality delivery.
