Dear Hiring Manager,

I am writing to apply for the Frontend Developer position and to share my strong interest in contributing to your team. With over **5 years of hands-on experience** in frontend development, I specialize in building **modern, responsive, and high-performance web applications** using **React.js, Material-UI, Redux, JavaScript (ES6+), HTML5, CSS3, Sass, and Bootstrap**.

I have extensive experience in **converting Figma designs into pixel-perfect, production-ready web pages**, ensuring accurate UI implementation with a strong focus on usability and design consistency. I have successfully developed applications and websites with **dark mode and light mode support**, maintaining seamless theme switching across platforms. I ensure **fully responsive layouts** that work consistently across all devices (desktop, tablet, and mobile) by using **modern CSS practices**, including **rem, vh, vw, and flexible grid systems**.

My project experience includes working on real-world applications such as **SANY, NPAV, NAFIS, M12, Land Global, Natural Remedies Human Health**, and other enterprise-level platforms. These projects involved building scalable UI components, implementing multi-language support, integrating REST APIs, optimizing performance, and ensuring cross-browser compatibility. I also developed custom frontend solutions for CRM systems, including reusable components and business-specific features.

I work comfortably in **Agile/Scrum environments**, actively participating in daily stand-ups, sprint planning, reviews, and retrospectives. I follow best practices for **clean code, performance optimization, SEO, accessibility, and Git-based version control**, and I collaborate closely with designers and backend teams to deliver reliable and user-centric solutions.

I am confident that my technical skills, real project exposure, and attention to UI detail would allow me to add value to your organization. I would welcome the opportunity to discuss how my experience aligns with your requirements.

Thank you for your time and consideration.

Warm Regards,
 Vrushank Modi
Frontend Developer
